

# VOTE DANIELLE FOR YOUTH MP

**When it comes to youth issues,  
I won't criticise, I analyse.**

All young people have the right to adequate resources that support them daily. However, in Peterborough, a quarter of children live in relative poverty. This affects their mental, physical health and education. **One initiative I will lobby for that could cushion the hardship in schools is launching uniform swap programmes to alleviate financial stress.**

Young people do not deserve to be bullied because of their mother tongue, the colour of their skin, or where they call home. Especially in schools, a place of learning and empowerment. Our cultural tapestry shouldn't be degraded but celebrated and explored. **I want a Peterborough where young people cherish and share their heritage instead of masking a part of their identity.**

Education is vital to young people's lives. I will ensure topics affecting learning, from disability to finance, are discussed to promote a more understanding school environment. A crucial part of learning is practice. Work experience enables that. **I will establish updated forums where credible work experience is accessible for young people.**

Peterborough is one of the UK's fastest-growing cities, yet age-old issues hinder our future. Our generation is loud. Our voices will be heard.

**Voting takes place between 22nd - 29th February**
